

## The Technical Bit

Our temporary mezzanines can be installed in an average of 5 days in bay sizes of 2.5m or 5m as standard, at a height of 2.6m.

This includes standard staircases at 1.1m, handrail and kick plate systems and finished flooring. All of our access/safety systems come in standardized sizes but can be adjusted dependent on your needs.

## Extras

Extras we provide;

- Marquee – we can supply the double height hard walled marquee to house your temporary mezzanine. This can include single or double pedestrian doors and roller shutters up to 5 as needed.
- Custom Bay Sizes
- Slimline Heating/Cooling Systems
- Internal Partitions to create dynamic work spaces, storage, changing areas etc.
- Lighting and Power Solutions.
- Finished Flooring Options including Carpet or Vinyl.
- Full turn key solutions. tell us what you want and we do the rest.

## What We Do

We can provide the temporary mezzanine and marquee solution that you need to increase your space without increasing your footprint or ground rent.

## How We Do It

We use high grade steel and ply wood structure situated inside a 5m high double story, insulated, marquee to create a functional solution to meet your requirements for storage, crowd holding, catering, office space, dressing rooms, H&M...the possibilities are endless.

## Who We Are

Two Storey are a small dynamic team with the experience and flexibility to install the space saving infrastructure you need. Quickly, efficiently and safely.
